

HAPPY BIRTHDAY

A Message about Birthdays and Birthday Treats

Please do not send birthday invitations into school for your child to distribute, unless you are inviting the entire class. I am not permitted to give out addresses and phone numbers. Thank you for your understanding and cooperation.

Have you heard... No more cupcakes in kindergarten?

We are sensitive to students with allergies and have seen a rise of food allergies over the years. Due to this increase we ask that you do not send in food items for birthdays.

We will contact you for special approved classroom snack donations. Thank you for your understanding and generosity.

So, can you bring in something to make your child feel special on their birthday?

ABSOLUTELY! Students love new pencils, crayons, and erasers! They get excited about party trinkets and even dental floss! Get creative and have fun with it! Share something your child loves other than sugary cupcakes. (In the past I've had students donate a book to the classroom. Some found an item that started with the first letter of their name and brought in kazoos, crazy straws, pencils, and smelly markers for everyone.)
